BUDDLEIA HARTWEGI

THE FINEST OF THE BUTTERFLY BUSHES.

BUDDLEIA HARTWEGI is undoubtedly the finest of all summer flowering Butterfly Bushes. As a summer cut flower plant and as an ornamental lawn shrub it is unsurpassed in beauty and usefulness. The large bright lavender panicles have remarkable substance and harmonize in arrangement with other summer flowers. The flowers do not "sunburn" as do the other Davidii varieties,and the tip flowers on the panicle open before the basal flowers have faded.The individual flowers are closely spaced on the panicles,imparting a compact and pleasing appearance. The foliage is very heavy and is rich dark green.Buddleia Hartwegi is hardier than any of the summer flowering Butterfly Bushes,having lived through the severe winter of 1935-36 without protection and with only slight loss.

L A N T A N A S

Although we have been increasing our production of Lantanas in the past several years, the demand has constantly exceeded the supply. For the coming season we have one hundred and fifty thousand plants in prime condition. Every florist can handle this plant on a profitable basis both as a blooming pot plant and as a bedding subject. For general spring sales, shift the plants into 3 or 4 inch pots. We have added several new varieties this year that are very outstanding.

DWARF WHITE(new)-Dwarf. Pure white.
SENSATION (New)- Medium dwarf. Lavender and yellow.
DWARF BEAUTY (new)- Dwarf. Orange bronze.

GYPSOPHILA BRISTOL FAIRY

A FLORIST MONEYMAKER

In Bristol Fairy we have a wonderful advance over all other types. The flowers are perfectly double, pure snow white and two to three times the size of Gypsophila Paniculata Flore Plena. Bristol Fairy blooms early and continues to throw up flowers from the base bearing fine sprays from June until killing frost. The dried flowers retain their pearly-whiteness throughout the winter so that they can be depended upon to lighten the stiffness and formality of winter bouquets.
